## The Importance of Professional Membership Organizations

Further professionalism is demonstrated to your clients when they know you are affiliated with organizations dedicated to maintaining professional and ethical standards. It lets them know you are concerned about the field of reflexology and actively support its growth and development as well as your own continuing education. As a member of an association you are kept informed of the latest developments in the field through continuing education opportunities, conferences and newsletters. When seeking any type of governmental recognition designed to protect your right to practice as a separate modality, the number of reflexologists represented on the local, national, and international levels in associations is important. Reflexologists can support each other everywhere through the strength of numbers created by membership in associations.

### State Associations: [www.ReflexologyRI.com](http://www.ReflexologyRI.com)

RARI is committed to establishing the profession of Reflexology, by monitoring laws and regulations in RI, establishing standards and ethics; and promoting continued education for members so they may serve the best interest of their clients and the profession. RARI strives to promote reflexology to the public and other health care professions as an integrative health practice. RARI also encourages communication and cooperation among members, and other Reflexology Associations within the United States and around the world.

### RAA: [www.reflexology-usa.org](http://www.reflexology-usa.org)

The Reflexology Association of America is a nonprofit membership organization that promotes the scientific and professional advancement of reflexology. Their mission is to elevate and standardize the quality of reflexology services available to the public. RAA works to unify and support state reflexology associations in order to create one national movement toward greater excellence, integrity, research and public safety. This includes support and representation with state legislation issues as needed.

### ARCB: [www.arcb.net](http://www.arcb.net)

The American Reflexology Certification Board is a nonprofit corporation. As an independent testing agency, offering a national certification program. Its primary aim is to certify the competency of those reflexologists who practice on a professional basis and wish to be recognized as meeting national standards. Involvement with ARCB and national certification is the next step after you have completed a course of study in reflexology and have further developed your hands-on skills by working on clients.
