**MAKE RARI ROAR!**

July 2020

## Greetings From the President

As the 4th of July approaches, I am reminded that this day stands for the birth of American independence as 13 colonies claimed their independence from England, eventually leading to the formation of the United States. United is a word that resonates with me, from both the perspective of our country as we pull together to stay safe and healthy within the backdrop of Covid-19, and from a more local perspective as we support each other in our reflexology professions.

Mutual support is more critical now than it has ever been. Some of our fellow practitioners in Connecticut have been told they may not practice without a license but not all practitioners have this information. This is a sobering wake up call for all of us and it is more important than ever that every RARI member lend a hand in the coming months and years to help maintain your right to practice. How? Network with Kelly Urso and make yourselves available for a show of support. Speak up when you hear any discussion of how massage and reflexology are the same. Write to your legislators; educate them about reflexology and why it is different. These simple things can have an effect if more than a few people reach out.

There will be a zoom call on **July 14th** regarding the **Connecticut** change in practice. I urge you to attend the call and be informed about what is happening and the possible approaches that will be discussed.

I hope you are enjoying your summer and look forward to being able to meet in person this Fall.

Namaste, *Dawn*
